

AMENDMENTS TO THE DRAWINGS

Minor amendments have been made to Figure 4 of the drawings to add arrows to the signal lines coming from the controller 34. No new matter has been added to the application by this amendment.

REMARKS

This amendment is responsive to the office action mailed June 29, 2005. In that office action claims 1-26 were indicated as being allowable. However, the abstract was objected to.

In response thereto, an amended abstract is being submitted herewith for the Examiner's consideration. It is believed that this removes the ground for rejection and allowance of the application is respectfully requested.

CONCLUSION

It is believed that a full and complete response has been made to the outstanding Office Action, and as such, the present application is in condition for allowance. Thus, prompt and favorable consideration of this amendment is respectfully requested. If the Examiner believes that personal communication will expedite prosecution of this application, the Examiner is invited to telephone the undersigned at (248) 641-1600.

Respectfully submitted,
